

I am responding to the proposed changes in the Indiana "Do Not Call" law. I do not wish this law to be changed under ANY circumstances! It has been so nice not to be harassed by unwanted sales calls. I used to receive numerous calls per day. I screened by calls via caller ID, but this was still a hassle since I had to get to the phone to see who it was. I might receive one unsolicited call per month. I always let them know that they cannot legally call me since I'm on the "Do Not Call" list. This is MY right to refuse these unsolicited calls. They should not have a right to interrupt my day when I do not wish to receive their calls. If I want to get in touch with them, including previous business contacts, I will do the calling!

Leave Indiana's law the way it is! It's working and making thousands and thousands of us here in the Hoosier state extremely happy!
